Other than EWTN, no other organization in the world does more than the *Register* to inform and inspire Catholics to live out their faith.

Though we do all of this with a very small staff, our expenses exceed our income by approximately \$500,000 each year — and our gap remains very large.

Without your support, our coverage of the many important events of our times simply would not be possible. Your donation also supports the sizable and growing group that consumes our digital content — and it could close our funding gap.

Please give a gift that can greatly enhance the *Register's* ability to reach the world with the light of the Catholic faith.

Ockham's Razor still cuts through the clutter.

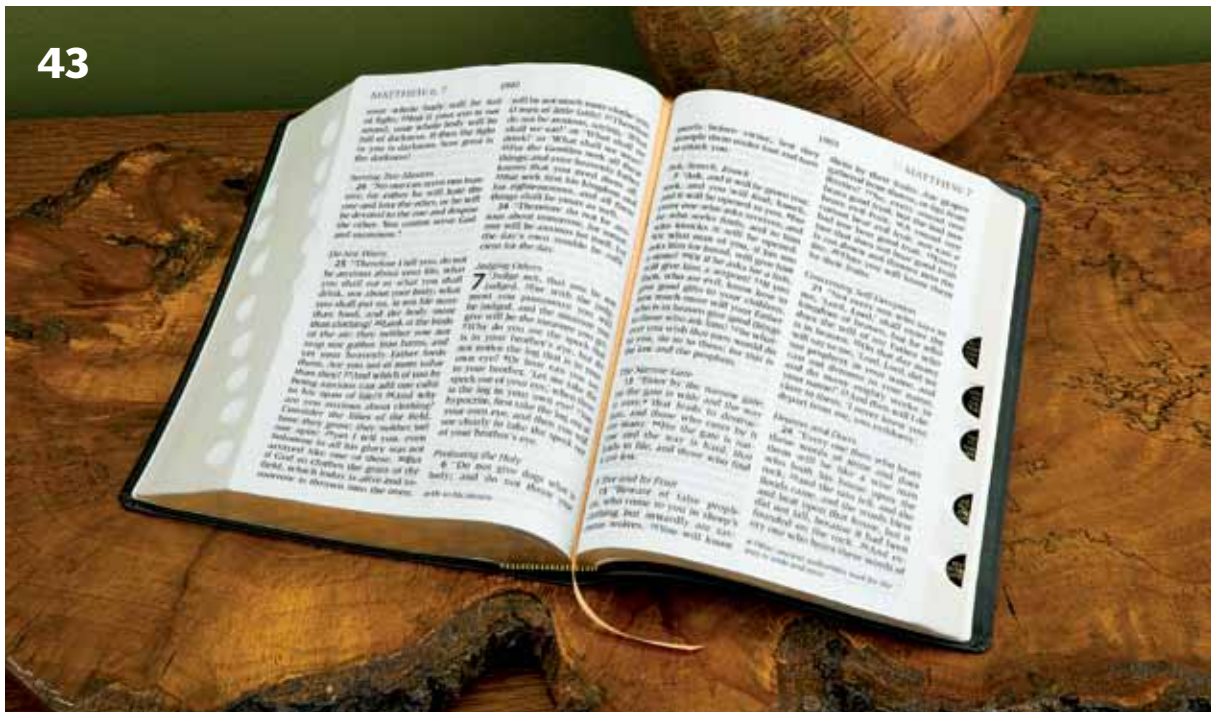

The best minds of both yesterday and today help prepare our science students for careers as Catholic doctors, researchers, and healthcare professionals. One example? William of Ockham, inventor of Ockham's Razor: the 700-year-old principle that the simplest solution is most often the best. Ockham is just one of many legendary thinkers, from Augustine and Aquinas to John Paul II and Benedict XVI, that Franciscan students can encounter in our Catholic Core, 40-plus credit hours that immerse each student in the study of Western Civilization and the Catholic Intellectual Tradition. For us, academic excellence means producing graduates as ready for the challenges of a secular culture as they are for their careers.
